**VIC'S CARPET DRY CLEANERS**

**THE HARSH WINTER AND YOUR HOME**

Let's beat the **WINTER BLUES** together, and have **Vic's Carpet Dry Cleaners** brighten up the inside of your home. This winter has been **TOUGH** on all of our homes, outside & in. Snow, Salt, Mud, Excess Moisture, Pet Accidents, & Grime. Your Carpets, Tiles, Wood Floors, & Upholstery have taken in most of the contaminants.

Winter can really take its toll on your floor coverings. Did you know when you sprinkle rock salt on the sidewalk and walkways to melt ice and to help prevent slipping, then you, your family members and guests are also

**TRACKING IT INSIDE!**

The composition of these compounds acts not only as an abrasive, leading to 'grayed' and worn out carpeted areas, but is also quite **CAUSTIC** and can discolor and damage the dye in the yarn system! So give **Vic's** a call so that we can bring the beauty back into your floor coverings.

As the Winter snow starts to melt, moisture can start to seep into your home causing an ideal breeding ground for Fungi, Germs, and Household Mold. Studies have confirmed that some diseases, including Salmonella, Strep, and Legionnaires disease are spread by **CONTAMINATED** Air Ducts. At **Vic's Carpet Dry Cleaners & Dyers**, we are highly qualified and have the latest technology in **Air Duct Cleaning**, to make sure you and your family **LIVE** and **BREATHE** in a healthy environment.

Call today and take advantage of our Specials.

Being, particularly in Populations most Affected by Product Choice, such as School Children and the Elderly.

4. Improves Indoor Air Quality.
5. Methods of cleaning is Non-Toxic, Hypo-Allergenic, Residue Free. Carpets stay cleaner longer

6. Safe for Children, People, Pets .

**Don't let your body become a filter. CLEAN GREEN**

## HARDWOOD FLOOR REJUVENATION

Your beautiful hardwood floors can also take a beating from the harsh winter. If you're looking to re-do your hardwood flooring without the mess, look no more. **Vic's Carpet Dry Cleaners** can now rejuvenate your dull looking floors with our completely **Dust-Free Restoration and Refinishing** process. Our Skilled technicians can refinish your floors to their original luster without the usual mess. The dust created from sanding never has a chance to get airborne and is automatically removed from the home. There-

fore, we leave behind a clean environment in addition to beautiful floors. The advantages of using our **Dust Free** method is if you have allergies or asthma, **Dustless Floor Sanding** is sensitive to your needs and provides a safe process that will not irritate these types of health problems. You also can conveniently avoid moving artwork, books, or keepsakes in and out of the room to refinish your floors, because our system will not allow wood dust to permeate your home. And there is **NO** clean up of walls and surfaces.

### DUSTING WON'T BE NECESSARY

Your newly refinished floors will renew warmth and beauty to your home. In addition, we offer a wide range of staining options that can add to any home décor. Call **Vic's Carpet Dry Cleaners** to give your floors a little TLC.

## POLLUTANTS AND YOUR UPHOLSTERY

Your furniture is as important to a room's appearance as your carpets & hardwoods. It takes on the same dirt and pollutants from the harsh winter. At **Vic's Carpet Dry Cleaners**, we specialize in restoring the beauty, vitality & original freshness of all your upholstered furniture. Deep down cleaning and fabric restoration can effectively and economically extend the life of your upholstery. It is the perfect play-

ground for kids and pets. Dirty hands, shoes and paws can leave behind all kinds of dirt, dust, bacteria and other allergens. Let **Vic's** professionally clean, deodorize and sanitize your furnishing to reduce the amount of unhealthy bacteria and allergens on and in your upholstered furniture to help you maintain a healthy home. We offer four different methods of cleaning depending on the fabric of your upholstered

piece.

1. Low Moisture Hot Vapor Steam; for pieces that allow water.
2. Dry Clean Only Fabrics; using a dry solvent solution.
3. Dry/Wet/Dry; Upholstered pieces that are heavily soiled.
4. Specialty Fabrics: Silks, Haitian Cottons, Down

## The Best Tile & Grout Cleaning Ever!!!!!!!

Here at **Vic's Carpet Dry Cleaners**, we restore Tile & Grout and remove tough stains and shadowing better than the competition. We guarantee that your Tile & Grout will be cleaner and longer lasting with a Rotovac 360 cleaning. Grout is something we tend to ignore when it comes to cleaning. Grout is a catchall for dirt, grease, and microbes. Over

time this build-up not only looks bad, but it starts to smell. It's at this point that mold and mildew can form releasing harmful particles in the air.

You'll want to have this cleaned long before it gets to this stage. Cleaning with the Rotovac 360 is the only professional tool that eliminates all of the ugliness to your bathroom and shower stalls. Making

them look like new again. So if your grout has seen better days, consider hiring the professionals at **Vic's Carpet Dry Cleaners** a qualified Tile & Grout cleaning company to bring life back into your walls, and floors—you'll love the new look.

## INTRODUCING “GROUT RE-COLORING”

Often times **OLD GROUT** has become so soiled and discolored that it can not be cleaned well enough to be acceptable. Other times the grout is clean, but is simply an out of date or mismatching color. The grout can be recolored to look like new again! The grout recoloring process is permanent, and also provides an excellent seal which will guard against further discoloration. The grout is given a thorough cleaning using heavy duty industrial strength cleaners. The grout colorant is then applied. The floor can be walked on approximately two hours after the grout recoloring process has been completed. **Vic's Carpet Dry Cleaners** has a variety of different shades to choose from. Call us **TODAY** for more details.

## CARPET STRETCHING & REPAIRS

You may notice waves or small ripples appearing in your carpet immediately following cleaning. The reason for the buckling vary;

If an installer does not power stretch your carpets or fails to do so properly, buckling is assured.

Improper carpet padding (too thick) can cause buckling. The absorption of moisture/humidity will cause the carpet latex to expand, resulting in buckling. This will resolve itself, however, as humidity in the room returns to normal and the carpet dries.

Dragging heavy furniture across wall-to-wall carpeting will pull the carpet off the tackless strips, causing waves. Restretching would be advised in this case.

Therefore, the root causes for buckling are PRE-EXISTENT and should not be blamed on the carpet cleaner or on the cleaning process.

Let **Vic's Carpet Dry Cleaners** remove those unsightly ripples with our **BEAR CLAW POWER STRETCHER**.

Your carpets were meant to be **FLAT NOT RIPPLEY**.

Keep your home safe, remove those tripping hazards that causes your carpets to wear improperly. We can patch any pet damaged areas with great results and remove those eye sores from those homeowners getting ready to put your home on the market. Patch Burn Holes, Repair Fringe on Oriental Rugs, Remove old Carpet and Reinstall new Carpet & Padding for a new look!

**Other Repair Services:** 1) Binding    2) Resurfing for Area Rugs    3) Repair Bleach Marks

4) Water Damaged Areas    5) Severe Odor Situations

Spring is here let **Vic's Carpet Dry Cleaners** get your home **LOOKING GREAT, HEALTHY, and FRESH AGAIN**.
